

## FCR/ICR Case ID Matrix

State Code/Name	FCR/ICR Case ID Description	FCR/ICR Case ID Example
<b>01/AL</b>	Description: 9 characters, includes integral leading zeros	Not participating in ICR at this time.
<b>02/AK</b>	Description: 9 characters, includes integral leading zeros	004563456
<b>04/AZ</b>	Description: 12 characters, includes integral leading zeros	000000012300 000000000200 000826683400
<b>05/AR</b>	Description: 9 characters, may include integral leading zeros	004564567 800333760
<b>06/CA</b>	<p>Description: Up to 15 characters. First 3 characters represent the CA county code</p> <p>KIDZ System – 3-character CA county code + 11 character KIDZ case # + 1 byte suffix = "A"</p> <p>ARS System – Includes 3-character CA county code prefix. Can also have an alpha at the end in the instance of multiple payees on one IV-D case.</p> <p>STARKIDS System - Includes 3-character CA county code prefix</p> <p>CASES - (3-character CA county code prefix + 7 digit case # + "-" + 2 digit suffix (The suffix is used to depict multiple Payers or Payees on one IV-D case, typically positions 1-13 used, 14-15 empty)</p>	<p>KIDZ example: 07712345678901A</p> <p>ARS example: 0370620502435</p> <p>STARKIDS example: 071000123456 089123456</p> <p>CASES example: 0750000001-01</p>
<b>08/CO</b>	Description: 12 characters, first 11 are numbers, 12th is alpha	80002324442A 01006171456A 01015819905B
<b>09/CT</b>	Description: 6 numbers, then dash, then one or two numbers	871916-1 000006-1
<b>10/DE</b>	Description: 6 characters, no leading zeros	298797
<b>11/DC</b>	Description: 6 numbers, then dash, then one or two numbers	374413-1

## FCR/ICR Case ID Matrix

State Code/Name	FCR/ICR Case ID Description	FCR/ICR Case ID Example
<b>12/FL</b>	Description: 10 characters, may include integral leading zeros	0123456778 0000000019 1195644264
<b>13/GA</b>	Description: 9 characters, may include leading zeros	376666328 000000151
<b>66/GU</b>	Description: 10 characters with leading zeros	0000010123 0000000001
<b>15/HI</b>	Description: 7-9 characters, no leading zeros	5821813
<b>16/ID</b>	Description: 6 characters, may include integral leading zeros	205005 000001
<b>17/IL</b>	Description: 9 characters, 'C' followed by 8 numbers	C01509837 C00000009
<b>18/IN</b>	Description: 10 characters, all numbers, includes integral leading zeros	0001234567
<b>19/IA</b>	Description: 7 characters, includes integral leading zeros	0003471 0000010
<b>20/KS</b>	Description: 10 characters, all numbers, includes integral leading zeros	0000244344 0000000014
<b>21/KY</b>	Description: 10 characters, includes integral leading zeros	0001688842 0000001029
<b>22/LA</b>	Description: 11 characters, includes integral leading zeros	00171251801 00000001501
<b>23/ME</b>	Description: 9 characters: 8 numbers, 1 alpha, may include leading zeros	20333582P 00044580P
<b>24/MD</b>	Description: 9 characters, all numbers, may include integral leading zeros	910062684 000000069
<b>25/MA</b>	Description: 10 characters, includes integral leading zeros	0003746947
<b>26/MI</b>	Description: 9 characters, all numbers with no leading zeros	Not participating in ICR at this time.
<b>27/MN</b>	Description: 12 characters, includes integral leading zeros	001458610001 000000325801
<b>28/MS</b>	Description: 10 characters: nine numbers, tenth alpha	600014153A

## FCR/ICR Case ID Matrix

State Code/Name	FCR/ICR Case ID Description	FCR/ICR Case ID Example
<b>29/MO</b>	Description: 8 characters, all numbers, some with leading zeros	51012613 00050302
<b>30/MT</b>	Description: 15 characters, includes integral leading zeros. MT consistently uses this field with appended AP/CP suffixes for all interstate communications.	0145777AP01CP01
<b>31/NE</b>	Description: 13 characters, always beginning with 'CA', no leading zeros	CA2CH4QYLE85X CA2T62MRLSMNP
<b>32/NV</b>	Description: 10 characters: 9 numeric + 1 alpha. Leading zeros will not be suppressed.	011234567A
<b>33/NH</b>	Description: 9 characters: 8 alphanumeric + "C", some with leading zeros	KSL86837C ABA5584WC 00085915C
<b>34/NJ</b>	Description: 11 characters: "CS" + 8 numeric + 1 alpha, no leading zeros	CS71047867A
<b>35/NM</b>	Description: Up to 9 characters, no leading zeros.	8 12 10369 7138251
<b>36/NY</b>	Description: 9 characters: alpha-alpha-numeric-numeric-numeric-numeric-alpha-numeric, no leading zeros	BJ79705H2
<b>37/NC</b>	Description: 10 characters, includes integral leading zeros	0023456789
<b>38/ND</b>	Description: Maximum of 8 characters, no leading zeros	11501 48030601
<b>39/OH</b>	Description: 10 characters, all begin with 70, no leading zeros	7044027808
<b>40/OK</b>	Description: 12 characters, includes integral leading zeros	000468375001 000000001001
<b>41/OR</b>	Description: 12 characters, first character is always 0, last 2 characters are always 41. Characters in between can be all numbers or a mixture of numbers and alpha characters	001009210741
<b>42/PA</b>	Description: 9 characters, may include leading zeros	324166675 000004351

## FCR/ICR Case ID Matrix

State Code/Name	FCR/ICR Case ID Description	FCR/ICR Case ID Example
<b>72/PR</b>	Description: 15 characters with integral leading zeros	000000000133563
<b>44/RI</b>	Description: 10 characters, may include leading zeros	0394823884 0013085731
<b>45/SC</b>	Description: 7 characters, includes integral leading zeros	0471695
<b>46/SD</b>	Description: 10 characters, no leading zeros	265108013A
<b>47/TN</b>	Description: 9 characters, includes integral leading zeros	Not participating in ICR at this time.
<b>48/TX</b>	Description: 10 characters, some with leading zeros, some of the older case numbers have alpha characters	99999892N1 UR00000081
<b>49/UT</b>	Description: 10 characters: 'C' followed by 9 numbers, no leading zeros	C000636011
<b>50/VT</b>	Description: 10 characters	0097250172 1144288961
<b>51/VA</b>	Description: 10 characters, includes integral leading zeros	0003224507
<b>78/VI</b>	Description: 7 characters, no leading zeros	1004572
<b>53/WA</b>	Description: 10 characters, includes integral leading zeros	0001754773
<b>54/WV</b>	Description: 11 characters, may contain integral leading zeros	72901278802
<b>55/WI</b>	Description: 10 characters, includes integral leading zeros	0003690209
<b>56/WY</b>	Description: Maximum 9 characters	28 130 65212 140652
